

MultiRIP

Installing and Validating MultiRIP Hybrid RIP Software

INSTALLING MULTIRIP SOFTWARE (👉 [Click here to Watch the Screen Video](#))

Below are instructions for how to install the MultiRIP multiple application RIP software.

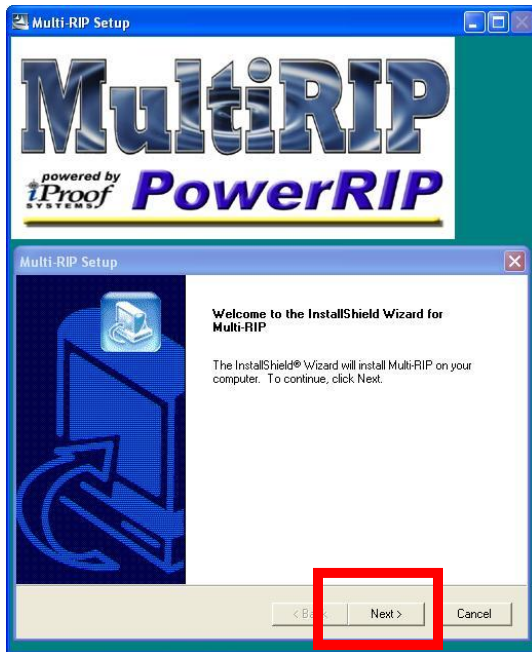

1. Install the standard Epson driver that came with your printer.
2. Turn off any Anti-Virus or permission-based software program that may prevent the MultiRIP Install Wizard from accessing the System32 folder on your C:\Drive.
3. Either put the MultiRIP CD into your CD drive or download the software from the website at www.iproofsystems.com/multirip/MultiRIP_CD.exe.
4. Click on the Unzip button on the WinZip Self-Extractor.

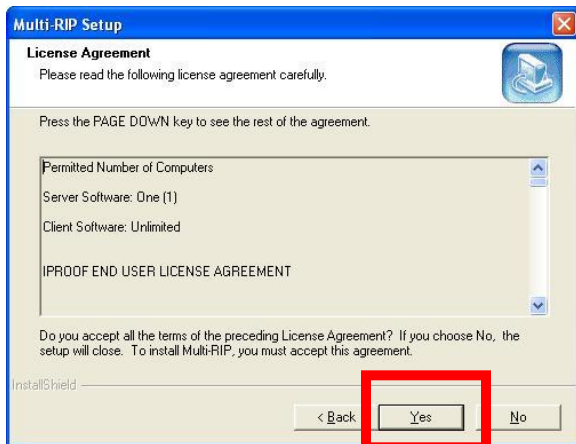

5. The following screen will show up and you will want to click on the link for Install MultiRIP.

- The following screen will show up and you will need to click on the Next button to launch the InstallWizard for MultiRIP.

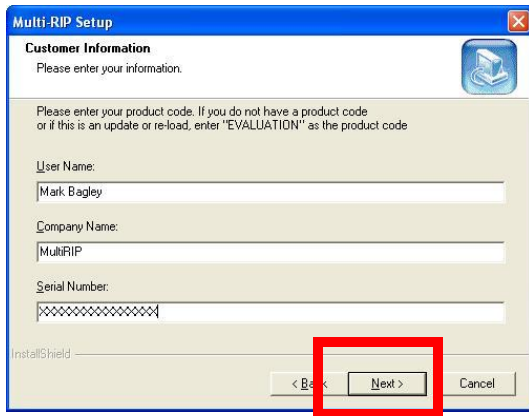

- You will need to agree to the License Agreement in order to install MultiRIP on your computer. We recommend that you read this agreement. To accept the terms of this Agreement, click on the Yes button.

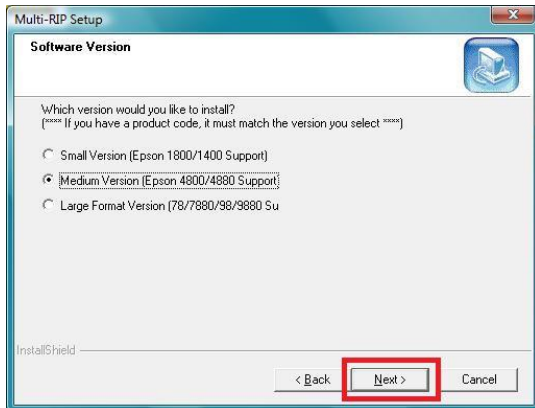

- The next screen is the Registration Information screen. Please type in your name, company name and Serial / Product Code number. The Product Code number can be found on the inside cover of the CD Case and also in the Introductory Email that was sent from support@multirip.com. If you are unable to locate the Product Code, please email support@multirip.com and continue the registration process by entering EVALUATION in this field.

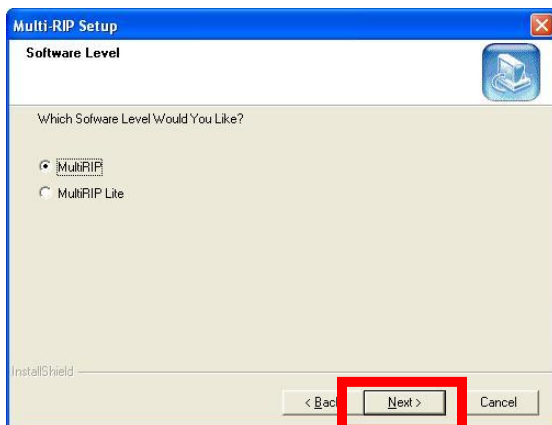

NOTE: By placing your Product Code into the Serial Code field, you will skip Step #7 & #8.

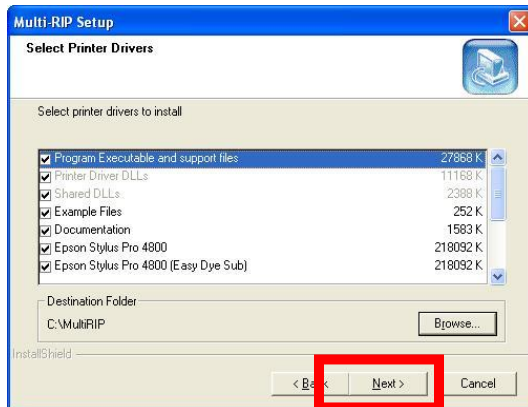

9. The next screen will ask you to choose which printer model version of MultiRIP you have purchased from our distributor. Once you have chosen the correct printer model, please click on the Next button. Below are your choices of available printer models:
- Epson 1400 / R1800 Printer (Small Format)
 - Epson 4800 / 4880 Printer (Medium Format)
 - Epson 7800 / 7880 and 9800 / 9880 Printer (Large Format)

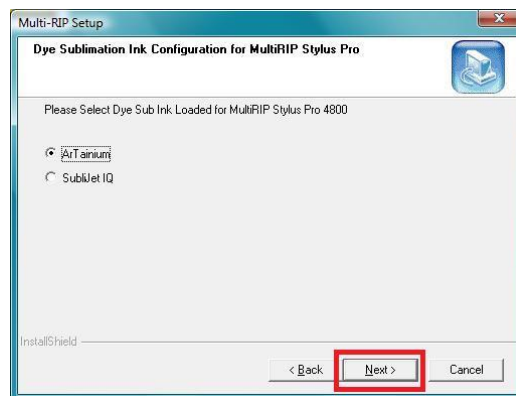

10. The next screen will ask you to choose which Software Level you have purchased. Once you have chosen the correct level, please click on the Next button. Below are the different versions of Software Levels.
- MultiRIP – screen printing film positives, dye sublimation & inkjet transfers, photographs and general printing items
 - MultiRIP Lite - dye sublimation & inkjet transfers, photographs and general printing items

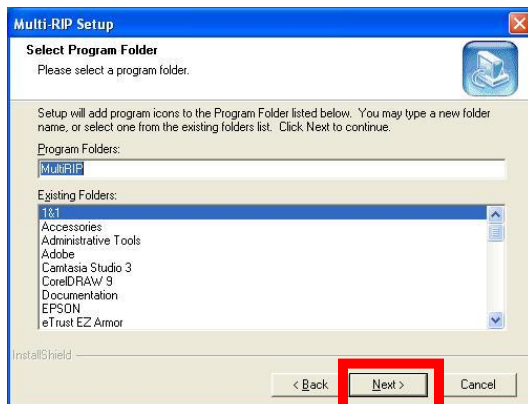

11. The next screen will ask you to select the Print Drivers that will be installed on your computer. You will need to scroll through this slide and uncheck all Epson Stylus Pro... drivers that you do not want to install and check the ones you want to install. For each model of printer, you will want to install three different drivers - i.e. Epson Stylus Pro XXXX, Epson Stylus Pro XXXX (Easy Dye Sub) & Epson Stylus Pro XXXX (Easy Transfer).

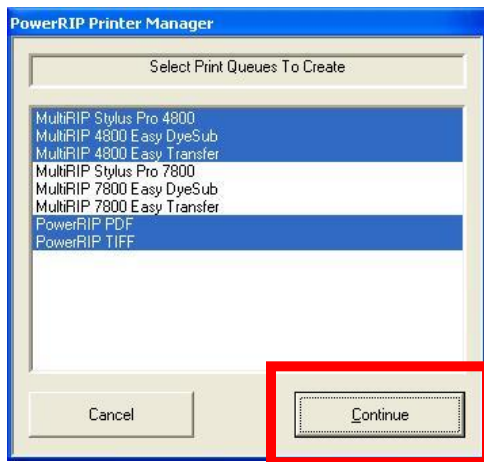

12. The next two screens are going to ask you which type of transfer inks (MultiINK or ChromaBlast) and sublimation inks (ArTainium or SubliJet IQ) are in each type of printer you are installing the software for. After selecting the correct radio button, please click the Next button.

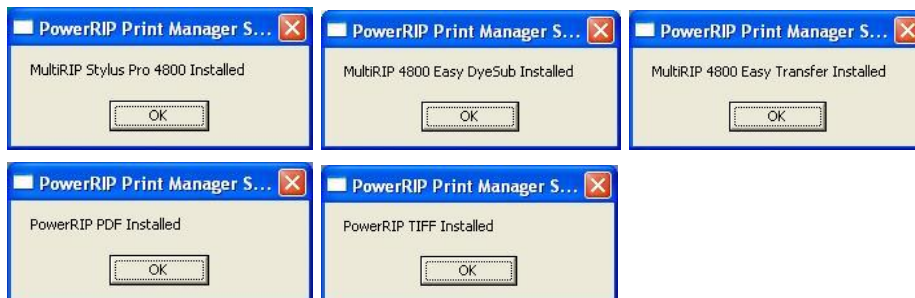

13. The next screen is going to ask you which Program Folder you will want MultiRIP's software to be installed into. For technical support reasons, we recommend to keep the name the same and just click the Next button.

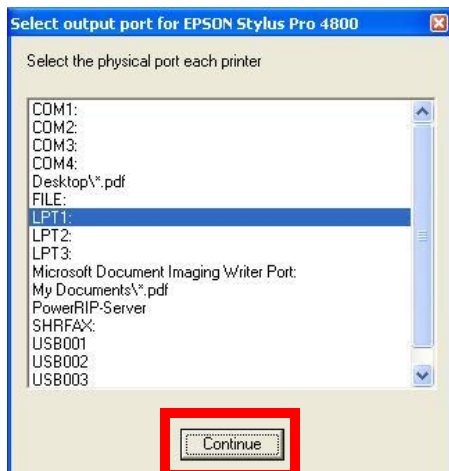

14. The next screen is going to ask you which Print Queues should be installed into the Printer & Faxes Folder on your computer. Based on your previous selections, all the correct queues will be already highlighted. Please click the Continue button.

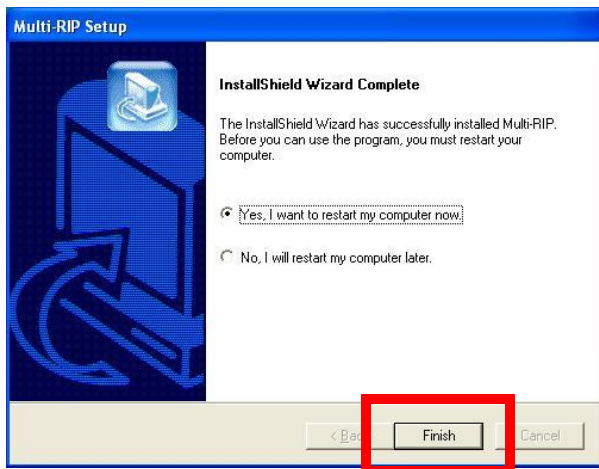

15. The InstallWizard will begin to install all the proper software and print queues. You will notice that a series of windows like the ones listed below will pop-up. Please click the OK buttons.

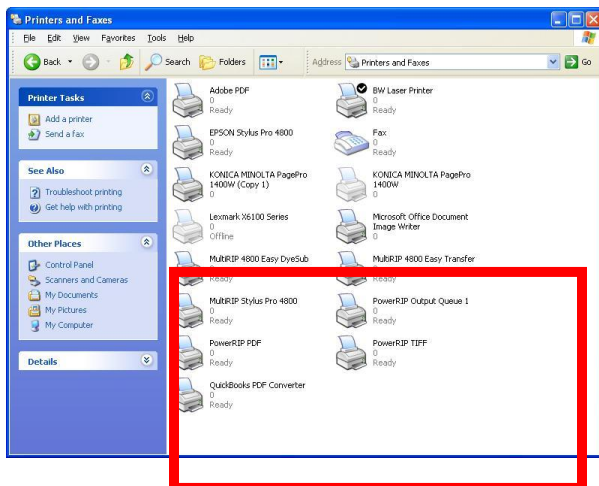

16. The next screen will ask you to select the correct Printer Port to run MultiRIP through. If you have already installed the Epson 4800 Printer Driver on your computer, the correct port will already be highlighted and you will need to click the Continue button. If the 4800 Printer Driver is not already installed, you will need to set the correct ports for the different printer drivers. [Click here](#) for a video on how to do this.

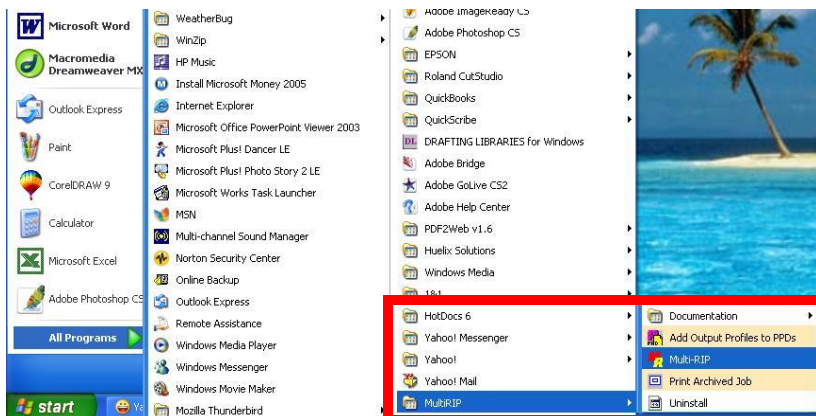

17. The next screen will ask you whether you want to restart your computer now or later. You will need to restart your computer before you can use the MultiRIP software

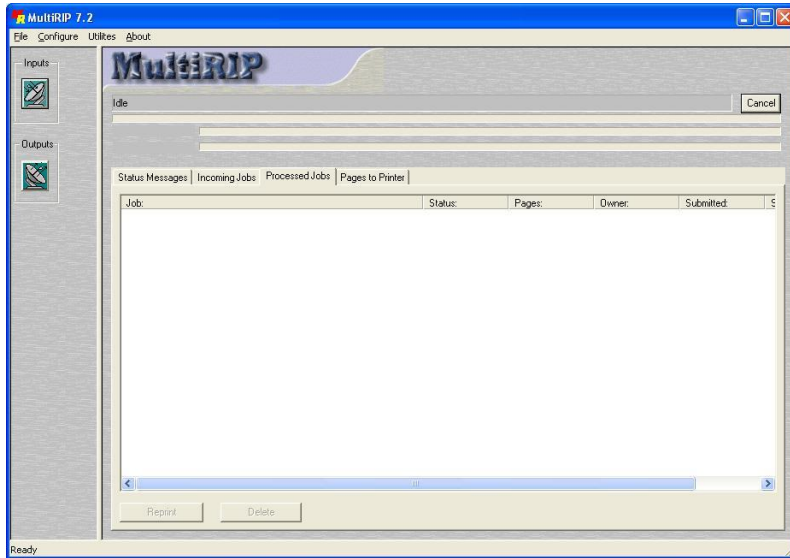

18. After your computer restarts, click on the Start button and go to your Control Panel. Once the new screen opens up, you will want to go into the Printers and Faxes folder. You should see that several new print drivers in this window.

19. The final step is to click on the Start button and put your cursor over the All Programs link and find the MultiRIP program folder and click on the MultiRIP icon to launch the MultiRIP software.

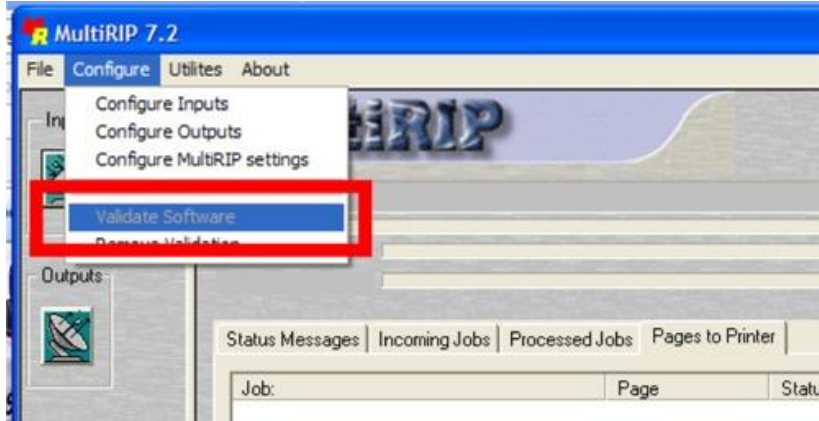

The RIP interface window will open up.

VALIDATING MULTIRIP SOFTWARE (👉 [Click here to Watch the Screen Video](#))

To validate MultiRIP and get rid of the pesky “MultiRIP” watermark, you must purchase the software. Once you have purchased it you will receive a “product code” which you will use to obtain a validation code from our server.

1. Open “**Validate MultiRIP**” from the “**Configure**” menu option.

This will open the MultiRIP Server validation dialog

2. Write down the user code (you’ll need it for the next step) and leave this window open.
3. Next, log on to www.iproofsystems.com/validation using your favorite web browser. Select the language you want the Registration screen to be displayed in.

4. Complete the entire Registration Form and double check it for accuracy. Enter your product code (the 16-character code either on the CD or the CD case) in the box marked “Please enter your product code”

The screenshot shows the iProof registration page. At the top, there is a navigation bar with 'iProof' logo and links for 'Products', 'Downloads', 'Get Activation Code', 'Support', and 'CONTACT US - 800-838-3838'. Below the navigation bar, there is a language selection menu with 'English', 'French', 'German', 'Italian', and 'Spanish'. The main content area is titled 'Custom Registration and Validation' and includes a 'Please enter your product code' field. Below this is a registration form with fields for 'Name', 'Organization', 'Address', 'Phone', 'Fax', 'Email', and 'Password'. There are 'Submit Form' and 'Reset Form' buttons at the bottom of the form.

NOTE: The email address you include on this form will be the email address that your log-in information for MultiRIP’s User Forum will be sent to.

5. Then click on the “Validate” link in the box for MultiRIP.

The screenshot shows the product selection page. The page title is 'Please select your product'. There are four product options listed in a table-like format. Each option has a product image and a 'Validate' link. The 'MultiRIP Validation' option is highlighted with a blue border. The other options are 'PowerRIP X', 'PowerRIP ScreenPrint', and 'PowerRIP ImageSet'.

6. The validation page will appear and you will need to enter your Product Code (16 digits code that came with your software) and you User Code (6 – 9 digit code that shows up in Step #2.).

MultiRIP Validation

For MultiRip Lite click [here](#)

To validate MultiRIP, please follow these 3 steps.

1. From the PowerRIP program click on **Configure** then click on **Validate Software**. At this point, you will be presented with a User Code and prompted for an Activation Code. To get the Activation Code do step 2.
2. Enter your **Product Code** enclosed in your software and **User Code** from the MultiRIP program into the fields below. You will be presented with an **Activation Code**.
3. This Activation Code should then be entered into the Activation Code field of the MultiRIP program.

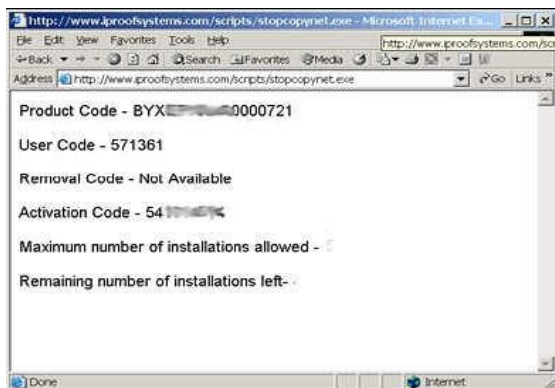

ALL codes are CASE sensitive

Please enter your Product Code:

Please enter your User Code:

Do not click "submit" more than one time.

7. If the numbers were entered correctly, the next page will supply you with a validation code. You will need to go back to the MultiRIP Interface and enter the Activation Code in the appropriate field.

8. Click Submit.

9. Enter the validation code (activation code) into MultiRIP's validation dialog:

A screenshot of the "PowerRIP Server Validation" dialog box. It contains the following text and fields:

- Please go to <http://www.iProofSystems.com/validation> to retrieve your activation code
- User Code:
- Activation Code:
- Buttons: Cancel, OK

10. Click OK. A dialog will appear informing you that MultiRIP is now validated.

11. Close MultiRIP. The validation will not take effect until MultiRIP is re-launched. This will remove the PowerRIP watermark across your print.
