

MRGP Easy Printers Guide

MultiRIP GP comes with three Easy Printer selections that allow you to quickly and easily print on both light and dark garments. The three Easy Printers are MRGP Easy Anajet Light Garment, MRGP Easy Anajet Dark Garment 1 and MRGP Easy Anajet Dark Garment 2.

MRGP Easy AnaJet Dark Garment 1

MRGP Easy AnaJet Dark Garment 2

MRGP Easy AnaJet Light Garment

These printers allow the Anajet user to create default settings based on the requirements of that individual shop that will allow the operator of the machine to simply choose that printer selection and hit the print button – i.e. no need to go into the RIP settings each time.

Below are the key default settings for each one of these Easy printers. To change these default settings, the user can go into the Printer & Faxes folder and right click over the printer icon. Select Printing Preferences and click on the Advance button in the bottom right corner. Then, select all the desired settings and then click the OK and Apply buttons.

MRGP Easy Anajet Light Garment

The MRGP Easy Anajet Light Garment printer is designed to be used for printing only CMYK inks on to a light colored garment. No white ink selections are available when using this printer selection. Below are the default settings for this Easy Printer:

- * Paper / Platen Size – 12.5 x 16 (M Size)
- * Print Quality – Fine (1440 x 720)
- * Color Appearance – Photo - Normal
- * Color Passes - 1
- * Print Direction - Bidirectional
- * RGB Source Profile – ColorMatch RGB

MRGP Easy Anajet Dark Garment 1

The MRGP Easy Anajet Dark Garment 1 printer is designed to be used for printing graphics that have a background and it will print graphics that have a faded edge to it. This Easy Printer selection will send both the white ink underbase and the color layer to the RIP software. Below are the default settings for this Easy Printer:

- * Paper / Platen Size – 12.5 x 16 (M Size)
- * Print Quality – Fine (1440 x 720)
- * Color Appearance – Photo - Normal
- * Layer Type – Color Layer Auto-Mask (Black Background)
- * Color Passes - 1
- * White Passes - 1
- * RGB Source Profile – ColorMatch RGB
- * Media Type – Black Cotton
- * Print Direction - Bidirectional
- * White Ink Density – Medium Density
- * Black Ink / Underbase Behavior – No Underbase, No Black

MRGP Easy Anajet Dark Garment 2

The MRGP Easy Anajet Dark 2 printer is preset to use the Capture Black layer function. Thus, the default settings of this Easy Printer is to only be used when printing with the MRGP Easy Anajet Dark 1 printer as well. This Easy Printer should be sent first and you will need to turn the Black background layer off in your graphic. Below are the default settings for this Easy Printer:

- * Paper / Platen Size – 12.5 x 16 (M Size)
- * Print Quality – Fine (1440 x 720)
- * Color Appearance – Photo - Normal
- * Layer Type – Capture Black for Next Print
- * Color Passes - 1
- * RGB Source Profile – ColorMatch RGB
- * Media Type – Black Cotton
- * Print Direction - Bidirectional
- * White Ink Density – Medium Density
- * Black Ink / Underbase Behavior – No Underbase, No Black
