

MultiRIP

Which Printers will MultiRIP GP Work With?

MultiRIP GP dtg (direct-to-garment) RIP Software program will work on the following modified Epson based dtg printers:

Epson R1800 / 1900

Epson 2100 / 2200

Epson 4800 / 4880

NOTE: The Epson 7800, 7880, 9800 and 9800 printers are available per a special request.

FOR DTG OWNERS:

If you have an interest in a printer that is not listed above, please send an email to support@multirip.com and state which printer you are interested in. We will reply back to you as soon as possible.

FOR OEM / DISTRIBUTORS:

If you are an OEM or distributor of dtg printers and would like to have a private label version of the RIP software for your company, please click on the [Distributor Application form](#) and let us know which printers you are interested in.

For additional technical support information, please visit the Frequently Asked Questions page (www.multirip.com/faq.html) or contact your Distributor.
