

# MULTIRIP GP UNINSTALL INSTRUCTIONS

Below are the instructions for when you want to upgrade your version of MultiRIP GP. You must first uninstall the existing MultiRIP GP software

1. Close ALL applications. This is very important to make sure that the following steps occur correctly.
2. Un-install MultiRIP GP by going to your Start button to the Control Panel and click on the Add/Remove Software icon.

3. Scroll through the list and click on MultiRIP GP-1800. The area will become highlighted and click on the Change/Remove button.

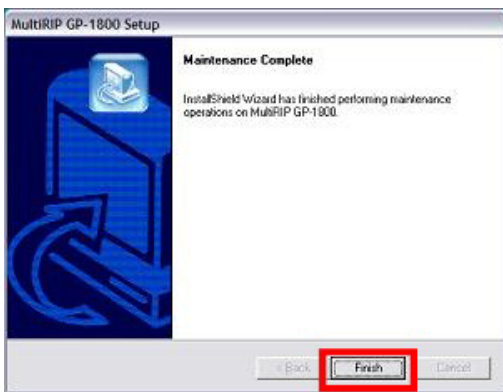

4. The MultiRIP GP-1800 Setup window will come up and you will need to click on the Remove radio button. Then, click the Next button.

Updated 11/1/2007

Click on the Finish button when it is done.

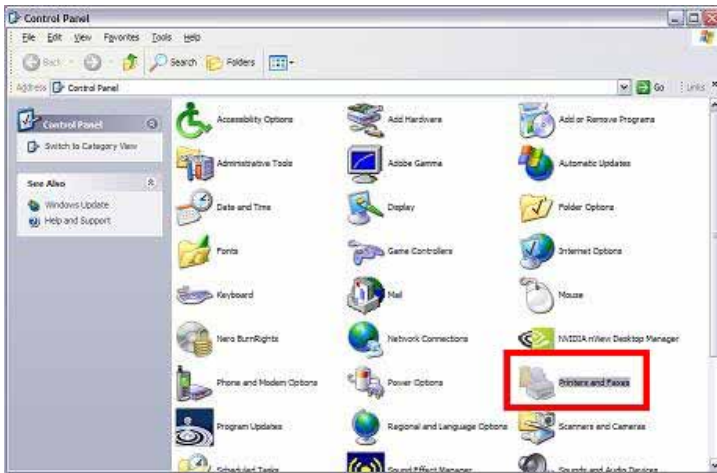

4. Once this process is completed, minimize (don't close) the Control Panel window. Go to the Start Button and open the C:/ Drive window. You will need to delete any folders that contain MultiRIP or PowerRIP like the following: MultiRIP GP-1800, MultiRIP\_GP-1800\_CD (only there if you download the software from the website, PowerRIPLayouts and PowerRIPHotFolders. You can delete these folders by holding the Control key down and left click on each folders and then click on the Delete button.

Updated 11/1/2007

5. Go back into the Control Panel (the window that is minimized) and click on the icon for Printers & Faxes.

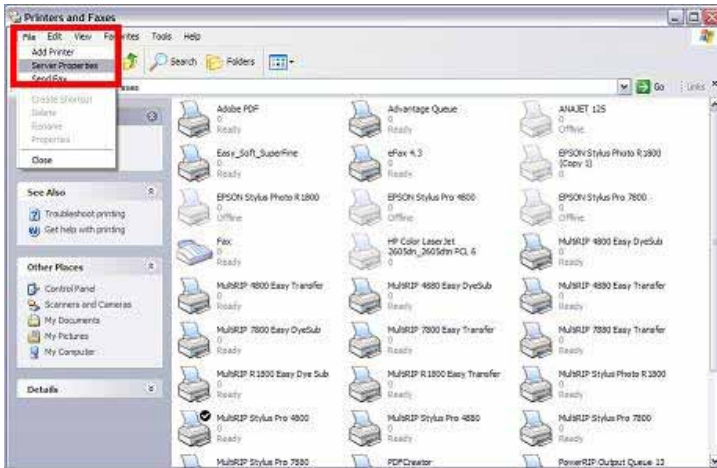

6. You will now need to delete the following Printers: MRGP Anajet Double Color, MRGP Anajet w/ White Ink, MRGP Easy Anajet Dark Garment 1, MRGP Easy Anajet Dark Garment 2, MRGP Easy Anajet Light Garment, PowerRIP Output Queue 1, PowerRIP Output Queue 2, PowerRIP PDF and PowerRIP TIFF.

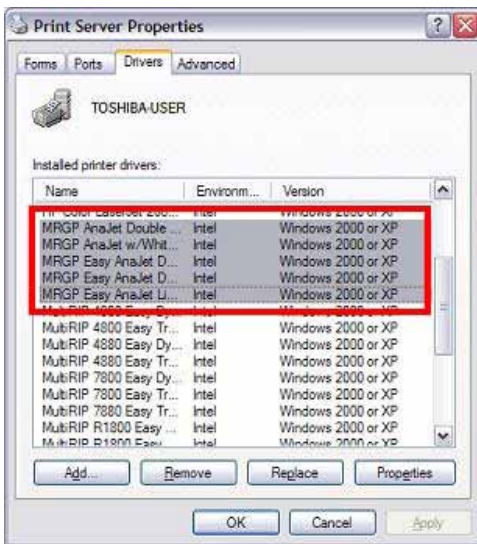

7. Once the MultiRIP Printers are deleted, you will need to go to the File Menu (located at the top left side of the screen) and click on Server Properties.

For up-to-date information, please visit the online User Forum at [www.anajetusers.com](http://www.anajetusers.com).

Updated 11/1/2007

8. In the Server Properties window, click on the Drivers tab and delete the following drivers: MRGP Anajet Double Color, MRGP Anajet w/ White Ink, MRGP Easy Anajet Dark Garment 1, MRGP Easy Anajet Dark Garment 2, MRGP Easy Anajet Light Garment, PowerRIP PDF and PowerRIP TIFF.

9. Once this is completed, closed all the windows and restart your computer. Then, click on the link below and save the file you your desktop before you install the latest version of MultiRIP.  
[www.iproofsystems.com/multirip/multirip\\_GP1800\\_CD.exe](http://www.iproofsystems.com/multirip/multirip_GP1800_CD.exe).

If you have any questions with this process, please email us at [support@multirip.com](mailto:support@multirip.com).
